OBJECTIVE

With over 9 years of experience, I have developed my skills in IT security, process and system management, as well as growth mentorship for junior team members. My focus lately has been on automation and AI implementation through agentic AI development.

WORK EXPERIENCE

Senior IT Support Engineer

Feb 2025 – July 2026

Spring Health

Denver, CO

- Architected multiple agentic AI models throughout various department platforms and company channels using Console, ChatGPT and Claude, resulting in over 70% of automated ticket resolutions.
- Revamped multiple SOPs increase overall procedure efficiency for the team, which led to further automated development due to frameworks.
- Served as a senior escalation point for technical issues, partnering with stakeholders to ensure timely resolution and service continuity.
- Managed technology integration and migration activities during acquisition efforts, coordinating across multiple teams to minimize disruption.

Senior IT Support Specialist

June 2023 – Feb 2025

Valtech (formerly Kin+Carta)

Denver, CO

- Developed and executed IT initiatives aligned with organizational objectives, achieving 100% completion of targeted deliverables.
- Implemented security and operational best practices through risk assessments, system maintenance, and end-user education.
- Mentored junior support staff and promoted knowledge sharing across the team.
- Performed system analysis, troubleshooting, and upgrades to improve performance, stability, and security.

IT Support Engineer

April 2022 – May 2023

Handshake

Denver, CO

- Diagnosed, investigated, and resolved hardware, software, and network issues, reducing ticket resolution times by 60%.
- Maintained and enhanced technical documentation and knowledge base content, increasing documentation accuracy by 70%.
- Designed and implemented automated Okta workflows and system enhancements, improving operational efficiency and user experience by 50%.
- Supported and maintained Apple hardware across 300+ endpoints, leveraging Jamf Pro to achieve a 95% uptime rate and streamline device enrollment processes by 40%.

IT Support Admin

April 2021 – April 2022

Red Canary

Denver, CO

- Led a process improvement team for end-user onboarding and training using A3/lean methodology, resulting in a 90% better end-user onboarding experience.
- Developed effective workflows in Zendesk and Slack for end-user help requests, improving response times by 30%.
- Promoted documentation maintenance for new systems, increasing knowledge management by 40%.
